

We're Thankful for You

MESSAGE FROM
GENERAL MANAGER/CEO STEVE YOUNG

WITH THANKSGIVING JUST AROUND THE CORNER, I'd like to take this opportunity to express my gratitude for your membership and support of Hamilton County Electric Cooperative. And this is no offhand or perfunctory thanks: Because of your connection to Hamilton County EC, we are able to make our community a better place. It might sound trite if it weren't so true.

In the spirit of this month's holiday, I think it's important to let our members know just what an impact you have on our co-op and the greater community, likely in ways you may not even realize.

As a cooperative, one of our core principles is Concern for Community. While our priority is always to provide safe, reliable and affordable energy, we also seek to be a catalyst for good. We are purposeful in partnering with local groups, such

Youth Tour sends teens from cooperatives around Texas and the nation to Washington, D.C., each June for a week of immersion in democracy in action. The trip is life-changing for many students, and we are humbled and honored to be part of this golden opportunity.

These investments in our community wouldn't be possible without you. You empower the co-op through your membership and through your participation in and patronage of these programs. When you attend co-op events—particularly the annual meeting—and alert us to problems, give kudos, or provide suggestions online or to our employees, you help us improve our operations and, ultimately, better serve the entire membership.

Because we are locally governed, Hamilton County EC has a firsthand perspective on community priorities, which enables us to make reasoned decisions about long-term and infrastructure investments, including considerations of whether certain projects are a timely fit for our membership.

I'm thankful for our board members' willingness to carve out time to attend important training sessions, participate in planning meetings and keep abreast of industry trends. Their time is well spent, as it results in better informed advisers who serve the co-op's interests in a way that our members expect and deserve.

On a more personal note, we appreciate the countless acts of kindness our lineworkers and other employees receive when they are working in severe weather or its aftermath. Our employees are thankful for your patience, care

and concern while they work to restore power during prolonged outages amid challenging conditions.

Hamilton County EC was established more than 80 years ago to bring electricity to our area when no one else would. The cooperative is a reflection of our community and its evolving needs. Together, let's continue making our corner of the world a better place. We can't do it without you, and for that reason and many others, we're thankful for your membership.

as volunteer fire departments, who share our commitment to enriching our community's safety and quality of life.

Another cooperative principle we work to amplify is Education, Training and Information. We espouse this principle by working closely with area schools to provide safety demonstrations and award college scholarships, and by sponsoring some of our community's brightest young people on the annual Government-in-Action Youth Tour.

CHAD SIMON | SAN ANTONIO EC

Move Over—It's the Law

WE ARE ALL THANKFUL FOR OUR CO-OP'S LINEWORKERS AND THE LONG HOURS THEY dedicate to ensuring affordable and reliable power is available around the clock. With this demanding work, safety is always the first priority because, in some cases, there are no second chances to get the job done right.

Now we have another important tool to keep our utility workers safe: Texas' "move over/slow down" law. When you see a utility vehicle parked on the side of the road with its amber lights (or amber and blue lights) flashing, help us keep our lineworkers safe by moving over a lane, if you safely can, or slowing down to 20 mph below the posted speed limit.

When you move over, you're giving workers the room they need to safely complete their jobs for you and other members.

We've all been careful to keep an eye out for police, firefighters and other first responders who are on the scene of an accident. Now, with the new law in place, drivers should treat utility workers just as they do all first responders. After all, they are among those who move toward trouble, not away from it, to keep all of us safer.

The last thing they need to be worrying about when they are taking care of our business is a careless motorist. Common sense tells us to just move over. Now, as of September 1, the power of the law stands behind this important rule.

If you are driving on a two-lane road and you do not have an extra lane to move into, the law says you should slow down by 20 mph. A slower-moving vehicle is a safer vehicle. And keep in mind—significant fines give this law teeth.

After all, there is no price that can recoup a lost life. There's no need to ask questions or wonder what they're up to. Just move over.

New Meter Policy Takes Effect in 2020

Effective January 1, 2020, only qualified Hamilton County Electric Cooperative employees may remove or reinstall meters. Neither electricians who are unaffiliated with Hamilton County EC nor the co-op's members will be allowed to remove or reinstall meters.

Members and electricians must contact the cooperative to request a meter removal and reinstallation by cooperative personnel. Upon receiving the request, we will do everything within our power to complete the work promptly. We recommend that you notify us in advance, preferably with at least 24 hours' notice.

To request meter removal or reinstallation, call the cooperative's main office at **(254) 386-3123** or **1-800-595-3401 Monday–Friday, 8 a.m.–4:30 p.m.** Servicemen will not remove or reinstall meters after office hours or on weekends except in emergency situations.

HCEC employees are required to follow federal laws when working around energized equipment. The following regulations apply when HCEC personnel work with energized meters:

1. OSHA 1910.269(I)(1)(i): Only qualified employees may work on or with exposed energized lines or parts of equipment.

2. OSHA 1926.960: Outlines general requirements for necessary personal protective equipment when working around energized equipment.

For Hamilton County EC employees, required PPE consists of a nonconductive hard hat, safety glasses, flame-resistant clothing, rubber gloves with leather protectors, fully closed-toe leather footwear and an arc flash face shield.

We regret that we must make the procedural change restricting meter removal and reinstallation to cooperative staff, but it is necessary for the safety of our members and to limit HCEC's liability.

GET READY FOR WINTER

Take a few basic steps now to prepare your home and your family for winter.

THERMOSTAT

Make sure you keep your home heated to at least 60 degrees, even if you're not at home. Consider installing a programmable thermostat to regulate temperature.

ROOF & GUTTERS

Check for loose shingles and flashing. Clean out gutters and downspouts.

TREE BRANCHES

Check tree branches and trim those that are too close to your home. If trees are encroaching on power lines, let your electric cooperative know.

WINDOWS & DOORS

Check weatherstripping, and patch or caulk as needed. Consider thick drapes to help keep heat inside.

FURNACE

Clean or replace the filter every four to six weeks. Check all fireplaces, chimneys and flues.

PIPES

If the temperature drops below 20 degrees, let water trickle from all faucets.

OUTDOOR HOSES & FAUCETS

Disconnect hoses and store inside. Locate the main water shut-off valve and know how to use it. Wrap outdoor pipes and spigots with insulation.

SAFETY

Check smoke and carbon monoxide detectors, and replace batteries as needed. Keep a fire extinguisher handy and ensure everyone knows how to use it.

EMERGENCY KIT

Prepare an emergency kit with flashlight, batteries, a phone list, bottled water, nonperishable food, blankets, first-aid supplies, medications, matches and pet supplies.

How Do Capital Credits Work?

Because electric co-ops operate at cost, any excess revenues, called margins, are returned to members in the form of capital credits.

Your co-op notifies you of how and when you'll receive your capital credits retirements.

5

Your co-op tracks how much electricity you buy and how much money you pay for it throughout the year.

1

4

When the co-op's financial condition permits, your board of directors/trustees decides to retire, or pay, the capital credits.

At the end of the year, your co-op completes financial matters and determines whether there are excess revenues, called margins.

2

3

Your co-op allocates the margins to members as capital credits based upon their use of electricity during the year.

CATHERINE LANE | ISTOCK.COM

Official Notice of Capital Credits Allocation

Hamilton County Electric Cooperative recently allocated capital credits to its membership for 2018.

At the end of each fiscal year, cooperatives determine margins made during the year by deducting the expenses of operating the cooperative from the revenue received from the sale of electricity. These margins are then allocated to each member's account based on their electricity use for the year. Allocated margins are called capital credits.

Capital credits remain invested in the cooperative until the co-op's board of directors determines that a return would not weaken the cooperative financially. To date, Hamilton County EC has returned \$4,749,064.29 in capital credits obligations for the years 1947-1988.

It is very important that departing members keep the cooperative informed of their current mailing addresses so they can receive capital credits when they are returned.

Capital credits for 2018 were calculated by multiplying the sum of each member's electric service bills for 2018 by 3.56%. For example, if the total of your electric bills from the cooperative that year was \$1,000, simply multiply that amount by 0.0356—the result is \$35.60, your capital credits allocation for 2018. In calculating your total bill, do not include any sales tax, miscellaneous charges, membership fees or deposits.

If you have any questions concerning your capital credits account, please feel free to contact Hamilton County EC.

This article is intended to serve as the official notice of allocations of capital credits for 2018.

ENERGRAPHIC | ISTOCK.COM

What Are Capital Credits?

CAPITAL CREDITS ARE AT THE HEART OF THE COOPERATIVE DIFFERENCE AND ONE OF the many benefits of your membership. Hamilton County Electric Cooperative operates as a nonprofit business—meaning we operate on just enough to run the business. We don't exist to earn a profit; we exist to serve you, our members.

Investor-owned utilities, on the other hand, maximize profits for the purpose of paying dividends to their stockholders. Hamilton County EC members—not stockholders—are owners of this electric utility.

Capital credits represent your ownership in Hamilton County EC. When you pay your monthly bill, we in turn pay all the expenses associated with running the cooperative, and any funds left over are called margins. Your allocated share of the cooperative's margins is based on the amount of electricity you purchased during the years you received service. These credits are held in reserve for a period of time and used for plant expansion and system improvements to allow us to better serve you.

Periodically, the Hamilton County EC Board of Directors reviews the financial condition and requirements of the cooperative to determine when and how much of the accrued capital credits can be responsibly retired and distributed to members. Those allocations are then returned to you.

Capital credits are one of the most unique and rewarding benefits you have as a member of Hamilton County EC.

Community Calendar

MARK YOUR CALENDAR

Hamilton County EC will be closed November 28–29 for Thanksgiving, December 24–25 for Christmas and January 1 for New Year's Day.

Comanche

Farmers Market; November 2, December 7; 9 a.m.–noon.

Deer Hunter Chili Supper, November 1, historic downtown.

Fall Fete Market, November 2, noon–5 p.m., Brennan Vineyards, 802 S. Austin St. Various vendors will be set up on the grounds. Visitors are encouraged to sip wine and shop.

For more information about Comanche County events, contact the Comanche Chamber of Commerce at (325) 356-3233 or email comanchetxchamber@gmail.com or comancheevents@gmail.com.
